**Subject:** BDCP: 408 Action item

All,

I had an action item to follow up regarding timing of the written request. We will need a written request for 408 permission in enough time to incorporate information into the 404/10 public notice. Most of the information required for the written request should be very easy to assemble. If you are having difficulty with coordinating the written statement from (or through) the CVFPB on the proposed alteration in enough time, you can include a statement that indicates you are currently working with the non-federal sponsors on their endorsement and it will come separately. Note that endorsement in this context is preliminary. You can then send a follow up letter which includes non-federal sponsor endorsement.

Thanks,  
Meegan
